

# LOST IN THE WOODS

A GAME BY RICARDO COUTO

1-4

8+

20-40m

You are lost in a forest and need food, water and safety.  
Are you able to find the way out?

**Lost in the Woods** is a coop family game that you can play alone or up to 4 players. You'll need to find water, fruits, honey, tools lost in the woods and run away from dangerous animals. As a group, you will have to find your way out of this forest (there is only one exit point), and you need to be sure that everyone will be able to get out!

Choose your character and try to survive in the wild and quit it as fast as possible, because food and water is limited.

- 🌟 **A light and fun cooperative experience!** You can share water, food and equipments with your friends.
- 💧 **Engaging experience on how to survive in a forest, with only a few days to find your way out.**
- ☀️ **Possibility to have simpler resources and tokens or a premium version with minis & cards.**

## Player feelings

At the very beginning  
That's it? Too easy...

After 3 rounds (3 days lost in the forest)  
I don't think we'll be able to find the exit :/

Later, managing resources  
Hey, friend, I need water! Can you give me some?

Next to the end  
FOUND THE EXIT! Yaaaaah! Let's calculate if we will be able to quit and make sure we don't disturb the bear!

### Lonely player

He chose to explore by himself, far from his friends. Is it a good choice? I don't know.

### Phase board

It shows when it is day and night.  
How many days can you survive?

### Hidden area and animals

Needs to explore. Some luck may help.

## MECHANICS

Cooperative - Action points - Grid  
Movement - Hexagon Grid - Modular  
Board - Selection of Turn Order

## COMPONENTS

- 1 main board
- 1 phase marker
- 4 players meeples
